

CYMA Partner: Kerr Consulting

Industry: Accounting System Consulting and Support

Kerr Consulting - Over 20 Years Of Excellence With CYMA Accounting Software

It seems that in today's fast-paced business climate, vendors and resellers come and go as companies are acquired, go out of business or change business focus. That's why the relationship between Kerr Consulting & Support and CYMA is so unusual.

Kerr Consulting, headquartered in The Woodlands, Texas (just outside of Houston), first began installing and supporting CYMA accounting solutions in 1985. Through all of the twists and turns of the accounting and computer industry since that time, Kerr and CYMA have maintained a relationship built on mutual trust, expertise and respect.

Today Kerr Consulting has offices in Houston, Milwaukee, Kansas City, Des Moines and Ft. Dodge, Iowa (the original location of the firm). Kerr consultants support over 500 CYMA customers providing industry leading expertise and implementation assistance. Dave Kerr, Founder of Kerr Consulting says, "We have clients that have been running on CYMA for over 20 years. We believe that CYMA provides the best bang for the buck for strong core accounting software applications. Our CYMA customer base keeps growing year over year and our clients have been very pleased with CYMA's commitment to keep improving their products".

The Kerr organization takes pride in tackling difficult implementations and offering creative solutions to demanding applications. They've installed CYMA into just about every industry you can think of - franchises, nonprofit organizations, local government, manufacturing, distribution, retail and more. Kerr's success resulted in being named by Accounting Technology magazine as one of the top accounting VAR's in the country three years running. "We're proud to have Kerr as one of our top partners", says Chris Lovely, CYMA President. "They deliver outstanding customer service and their staff participates fully with our CYMA product development, sales and marketing teams".

Both Kerr Consulting and CYMA look forward to continuing their profitable relationship in the future. For more information on Kerr Consulting, visit www.kerr-consulting.com.
